COVID-19 School Benchmarks

By Arizona County

The Arizona Department of Health Services (ADHS) recommends county-specific public health benchmarks to be in the **moderate** or **minimal** transmission category in <u>all three benchmarks for two weeks</u> in order to provide Hybrid (virtual and in-person) learning. The <u>ADHS Schools Toolkit</u> defines community spread levels with the thresholds outlined below.

- **CASES**: a two-week decline in the number of cases OR a two-week of a case rate of less than 100 cases per 100,000 population within the county;
- **PERCENT POSITIVITY**: for initial opening, two weeks of percent positivity less than 7% within the county; and
- COVID-LIKE ILLNESS (CLI): two weeks with hospital visits due to CLI below 10% within the region.

	Cases	% Positivity	CLI*
Apache	V	×	✓ (Northern Region)
Cochise	V	×	✓ (Southern Region)
Coconino	V	×	✓ (Northern Region)
Gila	×	×	✓ (Central Region)
Graham	×	×	✓ (Southern Region)
Greenlee	×	×	✓ (Southern Region)
La Paz	V	×	✓ (Western Region)
Maricopa	V	×	✓ (Central Region)
Mohave	V	×	✔ (Western Region)
Navajo	V	×	✓ (Northern Region)
Pima	×	×	✓ (Southern Region)
Pinal	V	×	√ (Central Region)
Santa Cruz	V	×	✓ (Southern Region)
Yavapai	V	×	✓ (Northern Region)
Yuma	V	×	✔ (Western Region)

^{*}NOTE: CLI is displayed by region rather than by county.
